- No
- Maybe

**This grant will enable parishes to (1) benchmark their current greenhouse gas emissions and (2) identify a suite of projects to systematically reach net zero carbon by a target date. Following these two grant-funded steps, parishes would need to commit the time, personnel, and money to implement the identified projects. On a scale of 1-5, how likely is it that your parish will commit to taking these sorts of steps to reach net zero carbon? \***

Implementation would likely require some combination of new investments, capital campaigns, major donor asks, and grant writing.

- 1. Very unlikely
- 2. Somewhat unlikely
- 3. Neither likely or unlikely
- 4. Somewhat likely
- 5. Very likely

**Please describe any concerns you have about the implementation process, especially related to the aforementioned time, personnel, and monetary commitments that implementation will require.**
